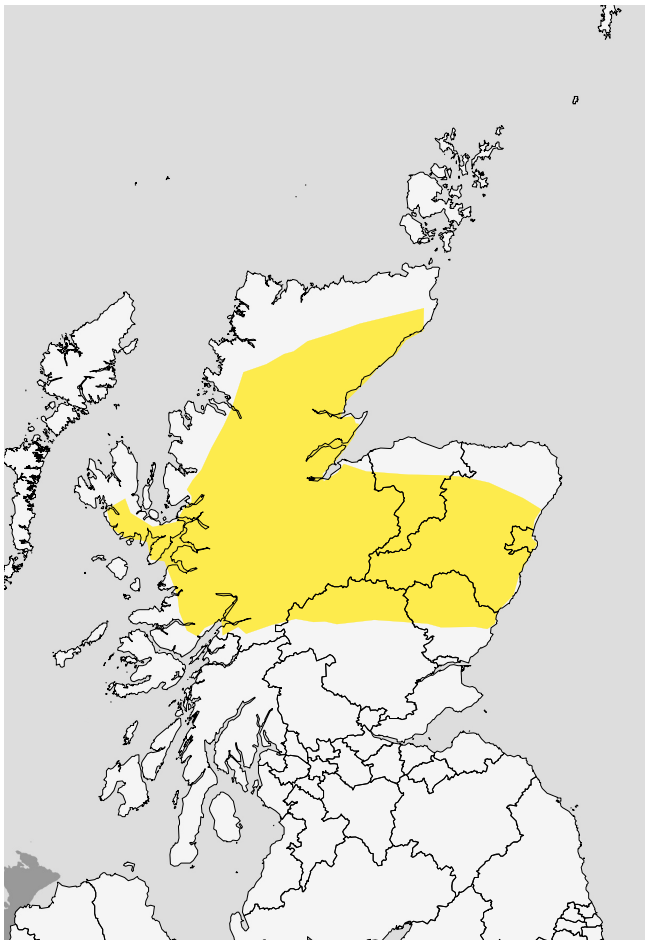
Yellow warning
Snow & Ice

Between
20:00 Fri 26 Oct 2018 and
11:00 Sat 27 Oct 2018



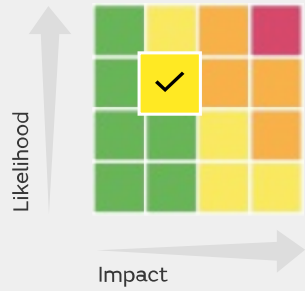
Hail, sleet and snow showers will leave surfaces prone to patchy ice, together with slushy snow over some upland routes.

What to expect

- Probably ice on some untreated roads, pavements and cycle paths, making accidents and injuries more likely
- Some roads and railways likely to be affected with longer journey times

Further details

A mix of rain, hail, sleet and upland snow showers, some heavy, will leave many roads wet tonight and into Saturday morning allowing patchy ice to form. Over upland routes above around 200-300 metres some slushy snow deposits could occur, more notably on hill routes above 400 metres. Travel conditions could become difficult and hazardous, especially on untreated surfaces, or where showers wash away grit or salt.



✓ Medium likelihood of low impacts

Issued at 10:43 Fri 26 Oct, 2018
